

Ministry Publishing I am Having Fun

Description

Ministry Publishing I am having Fun. When I became a publisher, I didn't know that publishing itself can be fun.

Publishing is Fun as I Observe Others.

I have only been a publisher of others for a short time, but I sure have discovered it can be fun. For example, I get to watch people who have never published before step into the water and get their feet wet. They begin learning that they have something important to tell, their own story. They learn that somebody likes what they are doing.

Publishing is Fun as Clients Grow.

Watching someone who willingly admits they don't know much about publishing and then they start learning what it is about is fun. Their eyes are opened as they begin to realize the opportunities ahead.

Suddenly instead of not knowing they begin to understand the process, techniques, and the results.

I Love Watching Clients Expand Their Skills

When a person comes and wants to be a client, they may know nothing about getting published, but they are willing to learn. I have found that a willing heart to learn is easy to work with no matter what the challenge.

Whether it is learning how to write which I teach in Basic Authors Training or they know how to write and just need a publisher like Ministry Publishing, they are open to letting me into their lives to bring their dreams alive.

Publishing is Fun Because It Satisfies.

Yes, it satisfies. Being a publisher can be hard considering the time, energy, and effort. But to watch clients grow, spread their wings, and fly is a joy! I am thankful that God has put me in the position to watch people develop new skills, expectations, and then the realization that their dream is coming true!

That is what satisfies me!
