Simple Thoughts From A Simple Man has after much fanfare been published and is now available. I have included a link in this blog to the book. I have also included the interview I had with Dan Case, the author. Take a break and watch it.

Simple Thoughts is a Devotional.

There are 92 devotionals in the book which means you can have a devotion every day for 13 weeks, plus one extra. The book title includes the words 4th Quarter. Because the book is being published now instead of just before the end of the year, we decided to publish now for the 4th quarter. Plus there are at least two devotions dealing with Christmas.

The Author is a man of simple faith.

He has the ability to sometimes take difficult passages and make them clear. It almost seems that he is shedding light on the Scriptures. Or to put another way, you find yourself saying that makes sense.

He has spent a lifetime reading and meditating on the Word of God. He has seen God work in his life in such a way that the Scriptures came alive to him. From there it is just a simple step to sharing what God has taught.

Simple Thoughts took over 70 years to be written.

That is the sum total of his years on earth. As mentioned already he has seen God move in ways he didnâ??t anticipate and in the process take him deeper into the Word of God. It doesnâ??t take long to understand that he loves God and His Word. It is the outcome of a devoted life to serving God to the best he could possibly do.

Simple Thoughts is a Special Book

Why do I say special. There are a lot of good devotionals out there. That is true. But it is a rarity to find a book that speaks to men and women alike. A book that is founded on a clear understanding of Godâ??s Word. As I edited the book I continually found those nuggets of truth that just sprang forward and gripped my soul.

In light of it being special you might want to give it as an early Christmas gift, or just an act of thoughtfulness.
